FOREWORD

The Emirates Motorsports Organization (EMSO), the ASN for the United Arab Emirates, has appointed TOP SPEED SPORTS EVENTS LS LIMITED as the Promotor which will organise the UAE4 Series (the Series) which is the property of the ASN and comprises three titles of National Champion, one for drivers, one for rookie cup drivers and one for teams. It consists of the UAE4 Series races which are included in the UAE4 Series calendar. All the participating parties (ASN, organisers, competitors and circuits) undertake to apply as well as observe the rules governing the Series.

1) REGULATIONS

- 1.1 The final text of these Sporting Regulations shall be in English, which will be used should any dispute arise as to their interpretation. Headings in this document are for ease of reference only and do not form part of these Sporting Regulations. Changes to these Sporting Regulations must be made in accordance with Article 18 of the International Sporting Code.
- 1.2 These Sporting Regulations come into force from the moment of their publication and replace all previous Sporting Regulations.

2) GENERAL UNDERTAKING

- 2.1 All drivers, competitors and officials participating in the Series undertake, on behalf of themselves, their employees, agents and suppliers, to observe all the provisions as supplemented or amended of the International Sporting Code and its appendices (the Code), the FIA General Prescriptions, the Technical Regulations and the present Sporting Regulations, together referred to as "the Regulations".
- 2.2 The Series and each of its Events are governed by the ASN in accordance with the present Regulations. Event means any event counting towards the Series and registered on the National Calendar for any year, commencing at the scheduled time for scrutineering and sporting checks and including all practice sessions and the race itself and ending at either the time for the lodging of a protest under the terms of the Code or the time when a technical or sporting certification has been carried out under the terms of the Code, whichever is later.

3) GENERAL CONDITIONS

- 3.1 It is the competitor's obligation to ensure that all persons concerned by his entry observe all the requirements of the Code, the FIA General Prescriptions, the Technical Regulations and the Sporting Regulations.

If a competitor is unable to be present in person at the Event, he must nominate his representative in writing.

Throughout the entire duration of the Event, a person having charge of an entered car during any part of an Event is responsible jointly and severally with the competitor for ensuring that the requirements are observed.

- 3.2 Competitors must ensure that their cars comply with the conditions of eligibility and safety throughout the Event.
- 3.3 The presentation of a car for scrutineering will be deemed an implicit statement of conformity.
- 3.4 All persons concerned in any way with an entered car or present in any other capacity whatsoever in the paddock, pits, pit lane, or track must wear an appropriate pass at all times.
- 3.5 During any Event competitors (and/or anybody associated with the entry of a car), are not permitted to produce or order to produce any moving pictures of competition cars on the track. Any exception to this must be approved in writing by the Promoter.

Failure to comply with the above will be reported to the stewards of the meeting and may result in a fine or the disqualification of the relevant team from the Event.

4) LICENCES AND ELIGIBLE DRIVERS

- 4.1 All drivers must be at least 15 years old (the date of the birthday being binding) and hold an appropriate National or International Circuit license, UAE, Zone, or Licence issued by the ASN.

Drivers from outside the UAE with a National License must also be in the possession of a Visa Release letter stating they are allowed to participate in the Series relevant race(s). As per Article 2.3.7 of the ISC.

Holders of ITA & ITB are not allowed to participate in the Series.

A driver must also be in possession of a current medical certificate of aptitude, either included on the competition licence or on an attached document.

No Driver entered in the Series may have participated in any round of the Series with any type of single seater car that was designed and/or built to achieve a weight-to-power ratio less than 2 kg/bhp.

- 4.2 No driver may participate in the Series without successfully completing a training/educational programme given by the ASN, organized by the Series.
- 4.3 No driver may participate in the Series for more than three complete seasons (more than 80% of the Competitions in any season being considered a complete season)
- 4.4 No Series winning driver may compete in a further Series.

The Rookie cup winner, provided he was not the overall champion is allowed to return to the Series.

5) TROPHY EVENTS

- 5.1 Events are reserved for Formula 4 cars as defined in the current FIA Technical Regulations (Appendix J – Article 274).
- 5.2 Each Event will have the status of a national competition.
- 5.3 The Event shall include all practice sessions and races.
- 5.4 Each Series's complete season must count a minimum of 500 minutes of track activity (across all season's competitions combined, collective test sessions not included) or a minimum of 150 minutes of track activity per event for Trophy with a minimum of 4 events.

There will be 3 races of 28 minutes plus one lap duration at each Event. The race duration must be specified in the Supplementary Regulations of each event.

- 5.5 The maximum number of Events in the Series is 4, and the minimum is 3.
- 5.6 The minimum number of races in the Series during a season is 9.
- 5.7 The final list of Events will be published 3 months before the start of the season.
- 5.8 An Event will not count for the Series if fewer than 16 cars are available for it.
- 5.9 Each Event will be run on circuits holding a valid FIA licence grade 4 minimum, delivered by the FIA.

6) UAE4 SERIES

- 6.1 The UAE4 Series driver's title will be awarded to the driver who has scored the highest number of points, taking into consideration all the results obtained during the Events which have actually taken place.

UAE4 Series Rookie Cup:

Participation in the UAE4 Series Rookie Cup shall be indicated on the series entry form (application entry form). The Organiser reserves the right to turn down or accept any applicant for the UAE4 Series Rookie Cup.

Independent of the Rookie Cup classification, participants in the UAE4 Series Rookie Cup will earn points towards the UAE4 Series Driver classification.

Points for the UAE4 Series Rookie Cup are awarded separately in accordance with the points system in ART.6.3.

A Rookie driver is considered to be a driver that has not competed in more than 3 Single seater race events.

- 6.2 The UAE4 Series team title will be awarded to the competitor which has scored the highest number of points, taking the best scoring drivers into account based on a maximum of two cars which need to be declared during Sign-on from each team. Only drivers nominated are eligible to score points for the team classification provided that they are listed as classified finishers in the final official classification as per format of points scoring for the driver's classification (excluding the additional points), Teams shall count their result from the total number of races. Dropped scores are not permitted.
- 6.3 Points for both titles will be awarded at each race according to the following scale:

Race	
Position	Points
1st	25
2nd	18
3rd	15
4th	12
5th	10
6th	8
7th	6
8th	4
9th	2
10th	1

No points will be awarded for any other additional points systems.

- 6.4 If a race is suspended under Article 39, and cannot be resumed, no points will be awarded if the leader has completed two laps or less at the time of suspension, half points will be awarded if the leader has completed more than two laps but less than 75% of the original race distance and full points will be awarded if the leader has completed 75% or more of the original race distance.

Full points will however be awarded if the maximum race time is reached before 75% of the original race distance was completed by the leader.

No points will be awarded if all laps have been completed under Safety Car.

- 6.5 If required by the ASN to do so the drivers finishing first, second and third in the Series must be present at the annual ASN Prize Giving ceremony.
- 6.6 If required by the FIA to do so the driver finishing first in the Series must be present at the annual FIA Prize Giving ceremony.

7) DEAD HEAT

- 7.1 Prizes awarded for all the positions of competitors who tie will be added together and shared equally.
- 7.2 If two or more drivers or teams finish the season with the same number of points, the higher place in the Series shall be awarded to:
- a) The holder of the greatest number of first places.

- b) If the number of first places is the same, the holder of the greatest number of second places.
- c) If the number of second places is the same, the holder of the greatest number of third places, and so on until a winner emerges.
- d) If this procedure fails to produce a result, the ASN will nominate the winner according to such criteria as it thinks fit.

8) PROMOTER

- 8.1 An application to promote an Event must be made to the ASN. It must be accompanied by written evidence that the promoter has made arrangements to secure the participation of all competitors.

9) ORGANISATION OF EVENTS

- 9.1 The organiser must be a club or body acceptable to the ASN.
- 9.2 Each organiser shall provide the information set out in the Specific or Supplementary Regulations of the event.

10) INSURANCE

- 10.1 The organiser of an Event must ensure that all competitors, their personnel and drivers are covered by third party insurance.
- 10.2 Thirty days before the Event the organiser must send the ASN details of the risks covered by the insurance which must comply with the national laws in force. This insurance certificate, written in the language of the country as well as in English, shall be made available to the competitors.
- 10.3 Third party insurance arranged by the organiser shall be in addition and without prejudice to any personal insurance policy held by a competitor or by any other natural person or legal entity taking part in the Event.
- 10.4 Drivers taking part in the Event are not third parties with respect to one another.
- 10.5 Each competitor shall be responsible for his own medical and third-party insurance during the official testing (collective testing/out of event).

11) OFFICIALS

- 11.1 For each season, the following officials must be nominated by the ASN or the Promoter:
 - a) A permanent race director.
 - b) A permanent chairman of stewards
 - c) A permanent Technical delegate/Chief Scrutineer
- 11.2 For each season, a young race director or steward shall be nominated by the ASN as an Observer.
- 11.3 For each event, the following officials may be nominated by the ASN:
 - a) A Safety Delegate
 - b) An ASN Delegate
- 11.4 For each event, the following officials must be nominated either by the ASN or the Promoter:
 - a) Two stewards of the meeting. In accordance with Article 11.7 of the Code, the stewards of the meeting will officiate as a body under the authority of their Chairman.
 - b) A clerk of the course.
 - c) A secretary of the meeting.
 - d) A chief medical officer.
- 11.5 For each event, the ASN or the Promoter may nominate the followings:
 - a) Media Delegate

- b) Scrutineers
 - c) Others
- 11.6** The clerk of the course shall work in permanent consultation with the race director. The race director shall have overriding authority in the following matters and the clerk of the course may give orders in respect of them only with his express agreement:
- a) The control of practice and the race, adherence to the timetable and, if he deems it necessary, the formulation of any proposal to the stewards to modify the timetable in accordance with the Code or Sporting Regulations.
 - b) The stopping of any car in accordance with the Code and with the Sporting Regulations.
 - c) The interruption of practice.
 - d) The starting procedure.
 - e) The use of the safety car.
 - f) The suspending and resuming of the race.
- 11.7** The race director, the clerk of the course, the chief scrutineer and the stewards of the meeting must be present at the circuit at the latest from the beginning of the Event as defined by the Code.
- 11.8** The race director must be in permanent radio contact with the clerk of the course, the chief scrutineer and the chairman of the stewards at all times when cars are permitted to run on the track. Additionally, the clerk of the course must be at race control and in radio contact with all the marshals' posts.

12) COMPETITORS APPLICATIONS

12.1 Applications to compete in the Series must be submitted to the Promoter by using the entry form available from the Promoter and accompanied by the entry fee as specified below. Applications at other times will only be considered if a place is available and on payment of a late entry fee to be fixed by the Promoter. The Promoter will notify the applicant of the result of the application within thirty days of its receipt.

Successful applicants are automatically entered in all Events of the Series.

12.2 Applications shall include:

- a) Confirmation that the applicant has read and understood the Regulations and agrees, on its own behalf and on behalf of everyone associated with its participation in the Series, to observe them.
- b) The name of the team.
- c) The physical address of the competitor corresponding to his licence.
- d) Copies of the licences for both, driver and competitor as well as copies of the related documents according to Art.4.1.
- e) The names of the drivers. A driver may be nominated subsequent to the application upon payment of a fee fixed by the Promoter.
- f) An undertaking by the applicant to participate in every Event with the number of cars and drivers entered.

12.3 In addition to the above requirements in Article 12.2, and in order to facilitate the selection process, the ASN may request additional information including but not limited to the following:

- a) Financial situation and financial background of the team.
- b) Sporting background and sporting project of the team.
- c) Identity of the team's ownership and if applicable, details of any upstream companies.
- d) Physical details of the team's headquarters and equipment.

- e) More detailed information pertaining to the drivers
 - f) Organisation chart.
- 12.4** The entry fee is €31,500 per car per season will be set by the Promoter.
Any entry request shall not be considered without the payment of the corresponding fees.
- 12.5** All applications will be studied by the Promoter and accepted or rejected at its absolute discretion. The Promoter will publish the list of cars and drivers accepted together with their race numbers, having first notified unsuccessful applicants as set out in Article 12.1. Out-of-time applications will be considered separately.
- 12.6** At its absolute discretion the Promoter may accept an additional entry from a team for a single Event, under such circumstances the entry fee will be set by the Promoter. Any such application must be made at least 14 days prior to the start of the Event in question. However, the limit of car entered in the competition and the maximum of cars per teams in the event can not exceed the limit set in Article 12.3.
- 12.7** The ASN may cancel the Series if less than 12 cars are entered for it by the closing date for entries.
- 12.8** Any driver entered in the Series and who is unable to take part in an Event must inform the Promoter in writing before the end of initial scrutineering of the Event in question.

13) PASSES

- 13.1** No pass may be issued or used other than with the agreement of the Promoter. A pass may be used only by the person and for the purpose for which it was issued.
- 13.2** A limit of passes for team personnel may be imposed by the Promoter

14) INSTRUCTIONS AND COMMUNICATIONS TO COMPETITORS

- 14.1** The stewards or race director may give instructions to competitors by means of special circulars in accordance with the Code. These circulars will be distributed to all competitors who must acknowledge receipt.
- 14.2** All classifications and results of practice and the race, as well as all decisions issued by the officials, will be posted on the official notice board.
- 14.3** Any decision or communication concerning a particular competitor should be given to him within twenty-five minutes of such decision electronically or by the dedicated radio channel broadcast.
- 14.4** Official instructions and communications to competitors may also be given via a dedicated radio channel or through the timekeeping screens.

15) INCIDENTS DURING THE RACE

- 15.1** "Incident" means any occurrence or series of occurrences involving one or more drivers, or any action by any driver, which can be reported to the stewards by the race director (or directly noted by the stewards) which:
- a) Necessitated the suspension of a race under Article 39.
 - b) Constituted a breach of these Sporting Regulations or the Code.
 - c) Caused a false start by one or more cars.
 - d) Caused a collision.
 - e) Forced a driver off the track.
 - f) Illegitimately prevented a legitimate overtaking manoeuvre by a driver.
 - g) Illegitimately impeded another driver during overtaking.
 - h) Driving beyond the track limits and in violation of Article 2c) of Chapter IV of Appendix L to the ISC.

Unless it was completely clear that a driver was in breach of any of the above, any incidents involving more than one car will normally be investigated after the race.

- 15.2 a) It shall be at the discretion of the stewards to decide, upon a report or a request by the race director, if a driver or drivers involved in an incident shall be penalised.
- b) If an incident is under investigation, a message informing all teams which driver or drivers are involved will, where possible, be displayed on the timing monitors.

Provided that such a message is displayed within 25 minutes of the end of the race, or a message is delivered to any team concerned within this time, the driver or drivers concerned may not leave the circuit without the consent of the stewards.

15.3 The stewards may impose any one of the penalties below on any driver involved in an Incident:

- a) A five second time penalty: five seconds will be added to the elapsed race time of the concerned driver provided he carries out no further pit stop before the end of the race, otherwise, in case of entering the pit lane, the driver must stop in his pit stop position for at least five seconds before re-joining the race.
- b) A ten second time penalty: ten seconds will be added to the elapsed race time of the concerned driver provided he carries out no further pit stop before the end of the race, otherwise, in case of entering the pit lane, the driver must stop in his pit stop position for at least ten seconds before re-joining the race.

In both of the above cases no work may be carried on the car during the penalty period of time.

- c) A drive-through penalty. The driver must enter the pit lane and re-join the race without stopping.
- d) A ten-second stop-and-go time penalty. The driver must enter the pit lane, stop in his pit stop position for at least ten seconds and then re-join the race.

If either of the four penalties above are imposed during the seven (7) minutes, or after the end of a race, Article 15.4b) below will not apply and 5 seconds will be added to the elapsed race time of the driver concerned in the case of (a) above, 10 seconds in the case of (b), 30 seconds in case of (c), and 40 seconds in the case of (d).

- e) A time penalty.
- f) A reprimand.
- g) A fine.
- h) A drop of any number of grid positions at the driver's next race.
- i) A drop of places in the classification of the race.
- j) Starting from the pit lane.

If any of the penalties above are imposed they shall not be subject to appeal.

- k) Disqualification from the results.
- l) Suspension from the driver's next Event.

15.4 Should the stewards decide to impose either of the penalties under Article 15.3a) or b), the following procedure will be followed:

- a) The stewards will give written notification of the penalty which has been imposed to the competitor concerned and, where possible, will ensure that this information is also sent through the official group messaging platform and/or by the dedicated radio channel broadcast to all teams and/or displayed on the timing monitors.
- b) With the exception of Articles 15.3(a) and (b) above, from the time the stewards' decision is notified on the timing monitors the relevant driver may cross the Line on the track no

more than twice before entering the pit lane and, in the case of a penalty under Article 15.3(d), proceeding to his garage where he shall remain for the period of the time penalty.

For the avoidance of doubt, the display of the Drive Through Penalty “Drive Through” will be repeated a maximum of two times. The Line may be crossed outside of the pit lane on the track a maximum of two times after the penalty is shown for the first time.

If a drive-through penalty is imposed during the last 7 minutes of the race, it is the choice of the driver to take the drive through or to accept a time penalty of 30 seconds.

However, unless the driver was already in the pit entry for the purpose of serving his penalty, he may not carry out the penalty after the safety car has been deployed. The number of times the driver crosses the Line behind the safety car will be added to the maximum number of times he may cross the Line on the track.

Whilst a car is stationary in the pit lane as a result of incurring a time penalty it may not be worked on. However, if the engine stops it may be started after the time penalty period has elapsed.

- c) When the time penalty period has elapsed the driver may re-join the race.
- d) Any breach or failure to comply with Articles 15.4(c) or (d) may result in the car being disqualified.

15.5 Behaviour Warning Points (BWP)

A Behaviour Warning Points system will be brought into use. In this case, the following procedure will be followed.

Drivers involved in any incidents, or those reported for unsportsmanlike behaviour or poor driving standards, may be allocated Behaviour Warning Points (BWP) by the Stewards, in addition to any other penalties. The Stewards may also decide to allocate BWP for other offences.

BWP are only allocated to drivers based on their own actions, not those of their team or any team member (e.g., pit stop or technical infringements). The number of BWP allocated will be listed on the Stewards' Decision or may be the subject of a separate decision.

BWP accumulate throughout the season and penalties are imposed once certain thresholds are reached:

- Upon reaching 6 BWP, the driver will be penalized with a drop of 3 grid positions for the next race.
- Upon reaching 10 BWP, the driver will be penalized with a drop of 5 grid positions for the next race.
- Upon reaching 14 BWP, the driver will be penalized with a drop of 8 grid positions for the next race.
- 14 above, the Stewards may impose any penalty they deem appropriate for any breach of the regulations.

Penalty resulting from the accumulation of BWP will be imposed in addition to any other penalty already assigned to the same driver for the last infringement that caused the driver to exceed the BWP penalty limit.

Behaviour warning points will be carried forward to the next event.

The Behaviour Warning Points updated list will be posted on the notice board at the beginning of each event.

16) PROTESTS AND APPEALS

- 16.1 Protests shall be made in accordance with the Code and accompanied by a fee – AED 1,500 and published by the ASN.
- 16.2 Right of Review shall be made in accordance with the Code and accompanied by a fee – AED 5,000 and published by the ASN.
- 16.3 Appeals shall be made in accordance with the Code and accompanied by a fee – AED 7,500 and published by the ASN.
- 16.4 If any protest or appeal requires the dismantling and the reassembly of different parts of a vehicle, the claimant must pay an additional deposit of AED 12,000/- for each part if the protest involves a clearly defined part of the vehicle (engine, transmission, steering, braking system, electrical installation, body, etc.).
- 16.5 Appeals may not be made against decision concerning the following:
- a) Penalties imposed under Articles 15.3(a), (b), (c), (d), (e), (f), (g), (h), (i) or (j), including those imposed during the seven (7) minutes or after the end of a race.
 - b) Any drop of grid positions or starting from the pit lane imposed under Article 29.2.
 - c) Any penalty imposed under Article 32.5.
 - d) Any decision taken by the stewards in relation to Article 35.4.
 - e) Any penalty imposed under Articles 37.4 or 41.3.

17) SANCTIONS

- 17.1 The stewards may inflict the penalties specifically set out in these Sporting Regulations in addition to or instead of any other penalties available to them under the Code.

18) CHANGES OF DRIVER

- 18.1 Any driver already nominated by one team, who then wishes to drive for another team entered in the Series, must first satisfy the Promoter that this is being done with the consent of the original team. If there is no such consent the Promoter will decide, at its absolute discretion, whether such a change may be made.
- 18.2 Before the end of initial scrutineering each competitors must specify which of his drivers will be driving which cars. After this point no changes may be made to the original allocation.

19) DRIVING

- 19.1 The driver must drive the car alone and unaided.
- 19.2 The driver is not permitted to participate in any additional practice, qualifying or race within the Event, except when authorised by the stewards.
- 19.3 Drivers must make every reasonable effort to use the track at all times and may not deliberately leave the track without a justifiable reason. For the avoidance of doubt the white lines defining the track edges are considered to be part of the track but the kerbs are not.
- A driver will be judged to have left the track if no part of the car remains in contact with the track.
- Should a car leave the track the driver may re-join, however, this may only be done when it is safe to do so and without gaining any advantage.
- 19.4 More than one change of direction to defend a position is not permitted. Any driver moving back towards the racing line, having earlier defended his position off-line, should leave at least one car width between his own car and the edge of the track on the approach to the corner.
- 19.5 Any driver defending his position on a straight, and before any braking area, may use the full width of the track during his first move, provided no significant portion of the car attempting to pass is alongside his. Whilst defending in this way the driver may not leave the track without justifiable reason.

For the avoidance of doubt, if any part of the front wing of the car attempting to pass is alongside the rear wheel of the car in front this will be deemed to be a 'significant portion'.

- 19.6 Manoeuvres liable to hinder other drivers, such as deliberate crowding of a car beyond the edge of the track or any other abnormal change of direction, are not permitted.
- 19.7 As soon as a car is caught by another car which is about to lap it during the race the driver must allow the faster driver past at the first available opportunity. If the driver who has been caught does not allow the faster driver past, waved blue flags will be shown to indicate that he must allow the following driver to overtake.

20) CAR AND DRIVER'S EQUIPMENT LIVRY

- 20.1 Each car must carry the race number of its driver as published by the Organiser. The number panel, if supplied, may not be modified without approval of the Organiser and must be placed on the nose of the car and on each rear wing end plate which must be left clear of other identification (unless specifically provided by the Organiser).

All the cars entered by a Competitor must have the same livery at every Competition (i.e. same basic colours and overall appearance), however under special circumstance drivers may be allowed to use a different livery on their cars. This will be subject to the approval of the Organiser.

In order that the cars of each Competitor may be easily distinguished from one another whilst they are on the track, each car of a Competitor must have different color stickers on the Halo and mirrors (the stickers must cover the whole body of the Halo and mirrors), the color must be clearly legible.

- 20.2 Every competitor must display the name of the driver and his national flag on the bodywork, on the outside of the cockpit or on the driver's helmet. These must be clearly legible.
- 20.3 Each car and each driver's overall must be fitted according to the Appendix 2.

21) TRACK TESTING & OTHER TRACK ACTIVITIES

- 21.1 The Series must organise mandatory collective testing sessions. The duration of all collective testing sessions must represent a minimum of 4 hours per each Trophy event in the season.
- 21.2 Other than any official testing sessions organized by the Series, no team or driver entered in the Series may take part in a test on a track hosting a Trophy Event prior to the event actually occurring.

The test ban will come into effect 10 days prior to the start of the first round.

Drivers may be allowed to participate in any commercial on-track activities, with the express authorization of the organiser.

For the avoidance of doubt, drivers and teams that participate in multiple racing series during the same race weekend at the same venue will be allowed to participate in all sessions that are scheduled for the races he or she participates in and is registered for. Drivers must inform the Organiser if they intend to enter in other racing series and get permission to do so from the Organiser.

- 21.3 The quota of new and used tyres allowed for the official collective testing sessions must be stated in Article 25.

22) PIT ENTRY, PIT LANE AND PIT EXIT

- 22.1 The section of track between the first safety car line and the beginning of the pit lane will be designated the "pit entry". Except in cases of force majeure (accepted as such by the stewards), crossing, in any direction, of the line separating the pit entry and the track by a car entering the pit lane is prohibited.
- 22.2 The section of track between the end of the pit lane and the second safety car line will be designated the "pit exit".

- 22.3** Leaving the pit lane and re-joining the track must be done without endangering or hindering other participants. It is strictly forbidden to cross the demarcation line at the pit exit with any part of a car when leaving the pits.
- Any driver crossing the demarcation line at the pit exit during practice or qualifying will be reported to the stewards or, during the race, a penalty under Article 15.3(a) will apply.
- 22.4** The pit lane will be divided into two lanes, the lane closest to the pit wall will be designated the “fast lane” and the lane closest to the garages will be designated the “inner lane”.
- Other than when cars are at the end of the pit lane under Articles 37.2 and 40.5, the inner lane is the only area where any work can be carried out on a car. However, no work may be carried out in the fast lane if it is likely to hinder other cars attempting to leave the pit lane.
- 22.5** Unless a car is pushed from the grid at any time during the start procedure, cars may only be driven from the teams designated garage area to the end of the pit lane.
- Any car(s) driven to the end of the pit lane prior to the start or re-start of a practice session, or any car(s) required to stop at the pit exit during a safety car period, must form up in a line in the fast lane and leave in the order they got there unless another car is unduly delayed.
- 22.6** Any driver that is required to start the race from the pit lane may not drive his car from his teams designated garage area until the five minute signal has been given and must stop in a line in the fast lane. Under these circumstances working in the fast lane will be permitted, but any such work is restricted to :
- a) Starting the engine and any directly related preparation.
 - b) The fitting or removal of permitted cooling and heating devices.
 - c) Changes made for driver comfort.
 - d) Changing of wheels if there is a change of climatic conditions.
- When cars are permitted to leave the pit lane they must do so in the order that was established under Article 37 unless another car is unduly delayed. At all times drivers must follow the directions of the marshals.
- 22.7** Competitors must not paint lines on any part of the pit lane, or otherwise mark their positions with tape or similar means.
- 22.8** Other than in Article 22.5 above no equipment may be left in the fast lane. A car may enter or remain in the fast lane only with the driver sitting in the car behind the steering wheel in his normal position even when the car is being pushed.
- 22.9** All pressurised air bottles and associated hoses in the pits must be stowed safely and may only be brought into the pit lane immediately before they are required for work on a car and must be removed as soon as the work is complete.
- 22.10**
- a) It is the responsibility of the competitor to release his car from his garage or a pit stop position only when it is safe to do so. The competitor must also provide a means of clearly establishing, when being viewed from the front of the car, when that car was released.
 - b) If a car is deemed to have been released in an unsafe condition during any practice session, the stewards may penalize the competitor as they consider appropriate.
 - c) If a car is deemed to have been released in an unsafe condition during a race a penalty under Article 16.3(d) will be imposed on the competitor concerned.
 - d) An additional penalty will be imposed on any driver who, in the opinion of the stewards, continues to drive a car knowing it to have been released in an unsafe condition.
- In all of the above cases, a car will be deemed to have been released either when it has been driven out of its designated garage area (when leaving from the garage) or after it has completely cleared its pit stop position following a pit stop.

- 22.11 Starting an engine with an external device will be considered working on the car, consequently this will not be permitted in the fast lane of the pits.
- 22.12 Cars may not enter the fast lane of the pits until the pit exit is opened at the start or re-start of each practice or qualifying session and the pit exit opening time prior to the start of the race. Furthermore, no car may be moved to a position in the slow lane which is closer to the pit exit than the garage which has been assigned to the relevant Team.
- 22.13 All pit road garage doors must remain open during all practice and qualifying sessions.
- 22.14 Under exceptional circumstances the race director may ask for the pit entry to be closed during the race for safety reasons. At such times drivers may only enter the pit lane in order for essential and entirely evident repairs to be carried out to the car.

23) SCRUTINEERING AND SPORTING CHECKS

- 23.1 The following documents must be submitted to the administrative checks by each team during initial scrutineering:
 - a) Competitor's and driver's licences and any related documents.
 - b) Where applicable, valid authorisation issued by their ASN
 - c) Medical certificate of aptitude.
- 23.2 Drivers with medical peculiarities (as for example allergies, bleeder, diabetic etc.) are obliged to submit a written information to the chief medical officer before the first practice starts. This information must include the driver name and number of the race car. Participants with injuries or temporary handicaps are obliged to contact the chief medical officer immediately. The chief medical officer will decide if such a driver will be admitted to the event.
- 23.3 During initial scrutineering, and at any time during the event, each competitor must have available all documents required by Article 4.1 above in addition to the car's technical passport.
- 23.4 Unless a waiver is granted by the stewards, competitors who do not keep to time limits will not be allowed to take part in the Event.
- 23.5
 - a) Initial scrutineering of the car will take place in the garage assigned to each competitor when the technical passport for the car must be available.
 - b) In order that scrutineers have the required access, all pit lane garage doors must be left open during all practice and qualifying sessions.
- 23.6 Race numbers and any official advertising must be on the car for inspection during scrutineering.
- 23.7 No car may take part in the Event until it has been approved by the scrutineers and Stewards.
- 23.8 The scrutineers may:
 - a) Check the eligibility of a car or of a competitor at any time during the Event.
 - b) Require a car to be dismantled by the competitor to make sure that the conditions of eligibility or conformity are fully satisfied.
 - c) Require a competitor to pay the reasonable expenses which exercise of the powers mentioned in this Article may entail.
 - d) Require a competitor to supply them with such parts or samples as they may deem necessary.
- 23.9 Any car which, after being passed by the scrutineers, is dismantled or modified in a way which might affect its safety or call into question its eligibility, or which is involved in an accident with similar consequences, must be re-presented for scrutineering approval.
- 23.10 The race director or clerk of the course may require that any car involved in an accident be stopped and checked.
- 23.11 After each race and all qualifying practice sessions at least three classified cars will be selected and must undergo scrutineering.

23.12 Checks and scrutineering shall be carried out by duly appointed officials who shall be responsible for the operation of the parc fermé and who alone are authorised to give instructions to the competitors.

23.13 The stewards will publish the findings of the scrutineers each time cars are checked during the Event. These results will not include any specific figure except when a car is found to be in breach of the Technical Regulations.

23.14 A Tutoring service performed by instructors designated by the ASN will be put in place. Competitors agree that the selected channel of data and video can be used by instructors appointed by the ASN at the service of drivers' tutoring.

24) TYRES AND TYRE LIMITATION DURING THE SEASON

24.1 Only the dry-weather tyres which have been provided at the Race Event by the appointed supplier may be used throughout the Race Event.

Competitors may transport wet-weather tyres from one Race Event to another provided they were allocated to them by the appointed supplier at a previous Race Event of the Series.

24.2 Any modification or treatment including cutting, grooving, the application of water, solvents or softeners, the use of heat retaining (and/or cooling) devices or pre-heating/cooling is prohibited. This applies to both wet-weather and dry-weather tyres.

In order to ensure that tyres have not been treated or modified samples may be taken from the tyre tread for analysis and comparison with a tyre taken directly from the supplier's stock. The sampling procedures will follow those for fuel sampling, see Article 30.7 for details.

24.3 According to the track activity of the event each car (registered Competition No.) must use no more than:

- Official Test and Free Practice: 2 used sets marked in the previous event and 2 new sets of slick tires
- Qualifying and Races: 2 new sets of slick tires
- Wet-weather tyres: A maximum of three sets of wet-weather tyres can be registered for the full Trophy including Pre-season test.

In case of exceptional circumstances (e.g. multiple sessions on a drying track) the Stewards of the meeting may decide to allow additional wet-weather tyres for safety purposes.

24.4 With the exception of the races, wet-weather tyres may only be used after the track has been declared wet by the race director, following which wet or dry weather tyres may be used for the remainder of the relevant session.

24.5 A competitor wishing to replace an already marked unused tyre by another identical unused one must present both tyres to the chief scrutineer.

In case of a tyre(s) damaged by an on track accident or flat spot, the technical delegate/chief scrutineer may present a dossier to the Panel of Stewards, who may approve the replacement of the damaged tyre(s) with registered tyre(s) from the same event (pre-event/free practice). The replacement of three or more tyres after the qualifying session might lead to a grid drop of four position applied to the next race the driver is taking part. Each driver might request to change up to a maximum of four tyres during each of the events.

24.6 If an approved bar coding is not used on the outer sidewall of each tyre or, at the request of the competitor on both sidewalls, the scrutineers will paint the race number of the driver as well as a letter characterising the Event.

24.7 The use of tyres without appropriate identification may result in a grid position penalty or disqualification from the race.

24.8 Tyres may only be inflated with air or nitrogen.

24.9 All tyres, when under the control of a team, must remain visible within the team's designated garage area at all times.

At his absolute discretion, the chief scrutineer will enforce parc fermé conditions on tyres at any time.

24.10 The scrutineers appointed for marking will supervise tyre changes in the pits.

25) TYRES AND TYRE LIMITATION DURING COLLECTIVE TEST

25.1 Only the dry-weather tyres which have been provided at the Collective Test Event by the appointed supplier may be used throughout the Collective Test Event.

Competitors may transport wet-weather tyres from one Collective Test Event to another provided they were allocated to them by the appointed supplier at a previous Collective Test Event of the Series.

25.2 Any modification or treatment including cutting, grooving, the application of water, solvents or softeners, the use of heat retaining (and/or cooling) devices or pre-heating/cooling is prohibited. This applies to both wet-weather and dry-weather tyres.

In order to ensure that tyres have not been treated or modified samples may be taken from the tyre tread for analysis and comparison with a tyre taken directly from the supplier's stock. The sampling procedures will follow those for fuel sampling, see Article 30.7 for details.

25.3 For UAE4 Series 2026, the maximum number of tyres that a car (registered Competition No.) can register for the Official collective test is seven sets.

25.4 A competitor wishing to replace an already marked unused tyre by another identical unused one must present both tyres to the chief scrutineer.

25.5 If an approved bar coding is not used on the outer sidewall of each tyre or, at the request of the competitor on both sidewalls, the scrutineers will paint the race number of the driver as well as a letter characterising the Event.

25.6 The use of tyres without appropriate identification may result in a penalty.

25.7 Tyres may only be inflated with air or nitrogen.

25.8 All tyres, when under the control of a team, must remain visible within the team's designated garage area at all times.

25.9 The scrutineers appointed for marking will supervise tyre changes in the pits.

26) MINIMUM CAR WEIGHT AND WEIGHING

26.1 The minimum weight of the car must be no less than 600 kg at all times during an Event or Official Test. For the avoidance of doubt fuel cannot be used as ballast and the weight of the car with the driver aboard wearing his complete racing apparel. This figure will take precedence over the Technical Regulations.

The final value will be established after all drivers and cars have been weighed during the first Official Test. The value will be approved by the organiser and published before the first Event.

26.2 a) During each qualifying practice session cars will be weighed as follows:

- i) In the pit lane the organiser will provide an appropriate surface, this area will be used for the weighing procedure. After qualifying practice the weight of the cars may also be checked during parc fermé.
- ii) Cars will be selected at random to undergo the weighing procedure. The chief scrutineer will inform the driver that his car has been selected for weighing.
- iii) Having been signalled that his car has been selected for weighing, the driver will proceed directly to the weighing area and stop his engine.
- iv) The car will then be weighed and the result given to the driver.
- v) If the car is unable to reach the weighing area under its own power, the chief scrutineer will advise the team to take the car to be weighed or the car will be

placed under the exclusive control of the marshals who will take the car to be weighed.

- vi) A car or driver may not leave the weighing area without the consent of the chief scrutineer.
 - vii) If a car stops on the circuit and the driver leaves the car, he must contact the scrutineers immediately on his return in order for his weight to be established.
- b) After the race each car crossing the Line may be weighed.
- If a driver wishes to leave his car before it is weighed he must ask the chief scrutineer to weigh him in order that this weight may be added to that of the car. The chief scrutineer will then tell the driver his weight and, once the driver leaves parc fermé, this will be deemed implicit acceptance of the figure.
- c) The relevant car may be disqualified should it's weight be less than that specified in Article 25.1 of the present Regulations when weighed under a) or b) above, save where the deficiency in weight results from the accidental loss of a component of the car.
- d) No solid, liquid, gas or other substance or matter of whatsoever nature may be added to, placed on, or removed from a car after it has been selected for weighing or has finished the post-race scrutineering or during the weighing procedure. (Except by a scrutineer when acting in his official capacity).
- e) Only scrutineers and officials may enter the weighing area. No intervention of any kind is allowed there unless authorized by such officials.
- 26.3** In the event of any breach of these provisions for the weighing of cars the stewards may drop the driver such number of grid positions as they consider appropriate or exclude him from the race.

27) GENERAL CAR REQUIREMENTS

- 27.1** Only chassis, gearboxes and engine installation kits complying entirely with the following homologations may be used during official test days and events.

Chassis Homologation No: 2021-05-F4-Tatuus
Gearbox Homologation No: 2021-05-F4-Tatuus 01/01/EK
Engine installation kit Homologation No: 2021-05-F4-Sadev

Once supplied, the components may not be modified in any way whatsoever except where specifically permitted by the Technical Regulations, or except in the case of automobiles adapted for disabled Drivers in possession of a Certificate of adaptations issued by the FIA, or with the written permission of the ASN after consultation with the manufacturer.

Any such modifications will only be permitted if they are deemed absolutely necessary after a problem has been clearly identified. Modifications to the automobile in accordance with the adaptations specified in the Certificate of adaptations are authorised.

- 27.2** Wheels must be manufactured by either OZ racing wheel, Motec or ATS.

Once supplied, the components may not be modified in any way whatsoever except where specifically permitted by the Technical Regulations or with the written permission of the ASN after consultation with the manufacturer. Any such modifications will only be permitted if they are deemed absolutely necessary after a problem has been clearly identified.

- 27.3** The use of the rear suspension pickup points as per the car Manual.

- 27.4** An approved Accident Data Recorder (ADR) must be fitted to the car and be in working order at all times during the Event. The responsibility of the functioning of the ADR and all associated costs will be the teams. The technical delegate or Chief Scrutineer can access the data on the ADR at any given time.

- 27.5** No signal of any kind may pass between a moving car and anyone connected with the car's entrant or driver save for lap timing purposes, legible messages on a pit board, body movement by the driver and verbal communication between a driver and his team by radio.
- 27.6** The Promoter may require entrants to fit an Electronic Self (Timekeeping Transponder) Identification Module for the purpose of accurate timing, the exact position of which will be advised prior to the Event. These modules will have to be in place and switched on for all practice sessions and the races. It is the responsibility of the competitor to ensure his cars transponder is fully functional at each time the car is moving under his own power be it in the pit entry, pit lane, pit exit or the track.
- 27.7** Only the following set of gear ratios is mandatory during official test days and events.

Gear	Ratio	
1 st	12/30	2.5
2 nd	16/30	1.88
3 rd	18/27	1.5
4 th	20/25	1.25
5 th	25/26	1.04
6 th	23/20	0.87

- 27.8** Each competitor must install and maintain in working order (image, data recording and logging, set to official time) an incident camera on the top of the main roll structure. Details of the system, including installation instructions, will be made available from the Promoter.

Nothing may obstruct the camera picture and it is the responsibility of the competitor to ensure the functionality of the camera system at all times.

The required memory card (Micro SD) will be supplied and installed by each team. The memory card slot may be sealed by the scrutineers before the start of the qualifying practice sessions and races. It is the competitor's responsibility to ensure that the seal remains intact and that the card is not removed until the end of the parc fermé of the relevant session.

The Organisers data engineer may break the seal on the card slot after the end of parc fermé of each session. The data engineer will copy the data into a central data bank and the card will be returned to the competitor. It is the responsibility of the competitor to ensure that the card and the video data of each session are available at any time during the Event.

All participants are obliged to fit and use the cameras assigned by the series organiser and / or their media representative in the respective car at the defined place according to the specifications of the series organiser. Installation shall take place in the team's working area (i.e., garage) by trained personnel of the series organiser. The memory card can only be removed from the cameras by the personnel nominated by the series organiser. Any breach of this regulation may result in the vehicle being excluded from the event.

Teams may use the Video footage for the purpose of driver coaching.

Failure to comply with the above requirements will be reported to the stewards.

- 27.9** During the entire Event, no screen, cover or other obstruction which in any way obscures any part of a car will be allowed at any time in the paddock, garages, pit lane or grid, unless it is clear any such covers are needed solely for mechanical reasons, which could, for example, include protecting against fire.

In addition to the above the following are specifically not permitted:

- a) Engine, gearbox or radiator covers whilst engines are being changed or moved around the garage.
- b) Covers over spare wings when they are on a stand in the pit lane not being used.
- c) Parts such as (but not limited to) spare floors, fuel rigs or tool trolleys may not be used as an obstruction.

The following are permitted:

- d) Covers which are placed over damaged cars or components.
- e) A transparent tool tray, no more than 50mm deep, placed on top of the rear wing.
- f) A cover over the car in the team's garage overnight.
- g) A cover over the car in the pit lane or grid if it is raining.

27.10 The noise generated by the car must not exceed 105 dB(A).

Engine noise will be assessed in the following way:

- a) The measuring point will be at a distance of 50 cm from and at an angle of 45° to the exhaust outlet.
- b) The height of the microphone will be between 40-60cm from the ground.
- c) The noise meter will be tuned to "slow".
- d) Measurements will be taken with the filter "A".
- e) The clutch pedal must be actuated in order to prevent the gearbox from rattling.
- f) The engine speed must be set at three-quarters of the maximum rpm.

27.11 Wind tunnel testing ban

Wind Tunnel Testing is the testing by a Team or any Related Party of that Team, or any agent or sub-contractor of the Team or any of its Related Parties, in a test environment of a representation of an F4 car or subcomponent in order to measure, observe or infer any forces, displacements, pressures or air flow direction resulting directly or indirectly from the incident air flow.

Any wind tunnel testing is forbidden. This also applies for wind tunnel testing using a scale model of a F4 car or subcomponent.

It is forbidden to use any results from wind tunnel testing obtained by a Team or any Related Party of that Team, or any agent or sub-contractor of the Team, any of its Related Parties or any other Third Party other than the wind tunnel testing results supplied by the rolling chassis manufacturer.

27.12 Aerodynamic data

No rolling chassis may be used in the Series unless the company supplying such rolling chassis accepts and adheres to the following conditions.

Aerodynamic data must be made available for the competitors.

27.13 Brake pads and Discs:

Only Dixcel Brake pads and discs as supplied by the track side spare parts supply are allowed to be used.

27.14 Technical passport:

All competitors must be in possession of a technical passport for each of their respective car which will be issued by the Series's Technical Delegate, as per the FIA template (see Appendix 3 of the UAE4 Series Sporting Regulations) and must accompany the car at all times. The technical passport must include the serial number of the chassis and the serial numbers of both engines

for each entry. Furthermore, all competitors must be in possession of an FIA chassis test report (see Appendix to the Formula 4 Technical Regulations) for their car which the relevant rolling chassis manufacturer must provide together with each survival cell. No car will be permitted to take part in an event unless the passport and the FIA chassis test report are available for inspection at initial scrutineering.

28) SPARE CARS

28.1 Spare cars are not permitted. However any part of the car may be changed at any time during the Event.

No driver may use more than one car at the same event. After initial scrutineering the survival cell may only be changed if the technical delegate is satisfied that a change is necessary following accident damage. Any replacement survival cell must be presented to the technical delegate for inspection and may have no components pre-fitted to it. Following the change the car must then be re-presented for scrutineering.

28.2 The decision whether a car has been repaired or changed will be taken by the stewards of the meeting, based upon a report by the chief scrutineer.

28.3 Any car which has passed initial scrutineering may not be removed from the confines of the circuit during the remainder of the Event.

29) ENGINES AND TURBOCHARGER

29.1 Only engines complying entirely with the following homologation may be used during official test days and events.

Engine Homologation No: 2017-07-F4-Abarth

Once supplied, the engine may not be modified in any way whatsoever except where specifically permitted by the Technical Regulations or with the written permission of the FIA after consultation with the supplier. Any such modifications will only be permitted if they are deemed absolutely necessary after a problem has been clearly identified.

Each engine must be uniquely identifiable by the serial number and the numbers of the seals listed in the Engine Homologation Document.

29.2 Each car must use a maximum of two engines for the entire Trophy including all Events in which its team competes. The engine may be changed only once during the season without penalty. Should a car have any further engine change, a ten-place grid penalty will be imposed upon him for the next race it takes part in.

However, a penalty will not be incurred if the Technical Delegate is satisfied that an engine has been genuinely damaged following an accident on the track or due to failures which are in the sole responsibility of the engine supplier.

The original engine may be refitted to the car before the start of the following event without incurring a penalty.

29.3 If an engine is replaced, and the above penalty incurred, the original engine may be refitted without incurring a further penalty provided this is done before the next event takes place.

29.4 Competitors are allowed to request a turbo charger replacement during or after an event once per season. However, the turbo charger replacement is only allowed when the Technical Delegate is satisfied that the turbo charger was operated or is operating out of normal running conditions. After the turbo charger change, the engine must be dyno tested before the start of the following event.

Should a car have any further turbo charger changes, two ten-place grid penalties will be imposed for the next race it takes part in. In addition, the engine must be dyno tested before the start of the next event. The only exception to this is a turbo charger change in line with Art. 29.2 or 29.4.

- 29.5** Other than the straightforward replacement of one engine or turbocharger unit with another, a change will also be deemed to have taken place if any of the seals are damaged or removed from the engine or turbocharger after it has been used for the first time in the Series. If a seal is broken, the engine needs to be dyno tested and checked by the engine supplier before it can get resealed.
- 29.6** An engine or turbo charger will be deemed to have been used once the car's timing transponder has shown that it has left the pit lane.
- 29.7** If a driver is replaced at any point during the Series the replacement driver must use the same engine and turbo charger which the original driver had been using. In this latest matter, in the event of exceptional circumstances which could cause the necessity to change the engine, and only in these circumstances, the Series organiser reserves the right to review the situation and may give its prior authorization to change it without any penalty.
- 29.8** Competitors are allowed to request an engine dyno test [once / twice] per season. The request must be done in writing to the Technical Delegate before the end of the last parc fermé of an event and is subsequently sealed by the Technical Delegate.
At the end of the event the engine is then taken to the engine supplier. If the engine is inside its performance window, it will be returned to the competitor without any changes. If the engine is outside its performance window, the following work may be carried out by the engine supplier without incurring a penalty:
- a) Repair of damaged parts
 - b) Readjustment of the engine
 - c) fitting of a new turbo charger
- After carrying out all necessary work, the engine must then be dyno tested again. However, if the engine is still outside of the performance window, a new engine will be allocated to the driver. This engine must be in line with Art. 29.1.
- 29.9** The promoter or sporting authority must a dyno test for an engine before the start of the Series as per defined in the Technical Regulations. The engine is subsequently sealed by the Technical Delegate.
At the end of the event the engine is then taken to the engine supplier. If the engine is inside its performance window, it will be returned to the competitor without incurring a penalty. If the engine is above its performance window the car will be excluded from all relevant sessions.
In any case, dyno tests will be always carried out once per season before the start of the Series for all cars as a collective dyno test.
The promoter or sporting authority must appoint an engine tuner responsible of the collective dyno test and share the results of the collective dyno test with the FIA prior to the first event of the season.
- 29.10** The Technical Delegate/Chief scrutineer may require the replacement of a complete engine, any part of the engine or ECU with parts coming from the supplier's stock or the check of the complete engine on the test bench.
- 29.11** If a driver is replaced at any point during the Series the replacement driver must use the engine which the original driver has been using and has the same number of turbo charger changes and engine rebuilds left as the original driver.

30) FUEL, FUEL SAMPLING AND REFUELLING

- 30.1** Only fuel provided at the Event by the appointed supplier may be used throughout the Event.
All competitors will be provided with the fuel specification in advance of each Event. Any alteration to the specification of the fuel provided by the appointed supplier may result in disqualification from the Event.
- 30.2** It must be possible to take a 1.0kg sample of fuel from a car at any time during the Event according to the procedure described in Art. 30.3

- 30.3** All cars must be fitted with a self-sealing FIA approved connector which can be used by the scrutineers to take a fuel sample from the tank. Competitors must also provide a fuel line approximately 1.5m long, with a tap, which can be used to transfer the samples into the sampling vessels.
- 30.4** During all refuelling or fuel handling operations :
- The relevant personnel must be wearing clothing which will provide adequate protection against fire.
 - An assistant, wearing clothing which will provide adequate protection against fire, and who is equipped with a suitable fire extinguisher of appropriate capacity must be present.
 - During refuelling all other team personnel must keep a safe distance from the car.
 - All cars, refuelling equipment and containers must be suitably grounded where necessary.
 - Any powered pumping system used to transfer fuel must be operated by a non-latching switch or be turned off automatically if the operator leaves.
- 30.5** No refuelling, or removal of fuel, is permitted :
- During any qualifying practice session.
 - Between qualifying practice sessions if the interval between them is 15 minutes or less.
 - The race or at any time prior to the completion of post-qualifying or post-race scrutineering.
- Refuelling in the pits is only permitted using equipment complying with FIA safety regulations.
- 30.6** Refuelling, or removal of fuel, is only allowed via self-sealing dry-break connectors and may only be carried out in the paddock or in the pits. The driver may remain inside the car throughout refuelling but the engine must be stopped.
- 30.7** Fuel samples will be taken during the Event as follows :
- During every Event a reference sample will be taken at random from the stock of the designated fuel supplier. Gas and fuel-tight locking containers will be used for the fuel samples.

Three samples will be placed into labelled containers, they will then be sealed and delivered as follows :
 - One container to the scrutineers for testing.
 - One container to the organiser.
 - One container to the fuel supplier.
 - At any time during an Event the chief scrutineer may take a fuel sample from any car. Gas and fuel-tight locking containers will be used for the fuel samples.

Three samples will be placed into labelled containers, they will then be sealed and delivered as follows :
 - One container to the scrutineers for testing.
 - One container to the organiser.
 - One container to the competitor.
- 30.8** The same method shall be used for oil testing purposes, when applicable.
- 31) GENERAL SAFETY**
- 31.1** Official instructions will be given to drivers by means of the signals laid out in the Code. Competitors must not use flags or lights similar in any way whatsoever to these.
- 31.2** Drivers are strictly forbidden to drive their car in the opposite direction to the race unless this is absolutely necessary in order to move the car from a dangerous position. A car may only be pushed to remove it from a dangerous position as directed by the marshals.

- 31.3** Any driver intending to leave the track or to go to his pit or the paddock area must signal his intention to do so in good time making sure that he can do this without danger.
- 31.4** During practice, qualifying and the race, drivers may use only the track and must at all times observe the provisions of the Code relating to driving behaviour on circuits.
- 31.5** Other than by driving on the track, competitors are not permitted to attempt to alter the grip of any part of the track surface.
- 31.6** If a car stops on the track it shall be the duty of the marshals to remove it as quickly as possible so that its presence does not constitute a danger or hinder other competitors. If any mechanical assistance received during the race results in the car re-joining the stewards may exclude him from the race (other than under Articles 31.15(d) or 40.3).
- 31.7** A driver who abandons his car must leave it in neutral or with the clutch disengaged and with the steering wheel in place.
- 31.8** Repairs to a car may be carried out only in the paddock, pits and on the grid.
- 31.9** The organiser must make two fire extinguishers of 5kg capacity available at each pit and ensure that they work properly.
- 31.10** Refuelling is not permitted during qualifying or the race.
- 31.11** The replenishment of any liquids is forbidden following the start of the race until after post-race scrutineering. All orifices for oil filling must be designed in such a way that the scrutineers can seal them.
- 31.12** Save as specifically authorised by the Code or these Sporting Regulations, no one except the driver may touch a stopped car unless it is in the paddock, the teams designated garage area, the pit lane or on the starting grid.
- 31.13** At no time may a car be reversed in the pit lane under its own power.
- 31.14** At no time may a car be driven unnecessarily slowly, erratically or in a manner which could be deemed potentially dangerous to other drivers or any other person. This will apply whether any such car is being driven on the track, the pit entry or the pit lane.
- 31.15** During the periods commencing five minutes prior to and ending five minutes after every practice session and the periods between the commencement of the formation lap which immediately precedes each race and the time when the last car enters the parc fermé, no one is allowed on the track, the pit entry or the pit exit with the exception of :
- a) Marshals or other authorised personnel in the execution of their duty.
 - b) Drivers when driving or on foot, having first received permission to do so from a marshal.
 - c) Team personnel when either pushing a car or clearing equipment from the grid after all cars able to do so have left the grid on the formation lap.
 - d) Team personnel when assisting marshals to remove a car from the grid after the start of the race.
 - e) Team personnel working on a car on the grid during a race suspension in accordance with Article 40.4.
- 31.16** During a race, the engine may only be started with the starter except :
- a) In the pit lane or the teams designated garage area where the use of an external starting device is allowed, or
 - b) Under Article 37.11(b).
- 31.17** Drivers taking part in practice sessions and the races must always wear the clothes and helmet specified in the Code (Appendix L – Chapter III (Appendix 1 of the UAE4 Series Sporting Regulations)).

- 31.18** A speed limit of 60km/h will be enforced in the pit lane. Except in the race, any driver who exceeds the limit may be fined up to €50 for each km/h above the limit.
- However, in accordance with Article 17.1 the stewards may inflict an additional penalty if they suspect a driver was speeding in order to gain any sort of advantage.
- During the race, the stewards or race director may impose either of the penalties under Article 15.3 a) or b) on any driver who exceeds the limit.
- 31.19** If a driver has serious mechanical difficulties during a practice session or the race he must leave the track as soon as it is safe to do so.
- 31.20** The car's rear lights must be illuminated at all times whenever they are running on wet-weather tyres or when otherwise requested by the race director. It shall be at the discretion of the race director to decide if a driver should be stopped because his rear light is not working. Should a car be stopped in this way it may re-join when the fault has been remedied.
- 31.21** Only three team members per participating car (all of whom shall have been issued with and wearing special identification) are allowed in the signalling area during practice and the race.
- People under 14 years of age are not allowed in the pit lane.
- 31.22** Competitors are not permitted to install and/or to use any electric devices or time-recording-instruments on the pit wall within 25 metres of the line. Any equipment installed by a competitor on the pit-wall must not protrude from the pit-wall and over the track.
- 31.23** Animals, except those which may have been expressly authorised by the Organisers for use by security services, are forbidden in the pit area and on the track and in any spectator area.
- 31.24** The race director, the clerk of the course or the chief medical officer can require a driver to have a medical examination at any time during an Event, this medical examination may include an anti-doping test (ISC – Appendix L, Chapter II, Article. 4).
- 31.25** Failure to comply with the general safety requirements of the Code or these Sporting Regulations may result in the disqualification of the car and driver concerned from the Event.

32) PRACTICE SESSIONS

- 32.1** Save where these Sporting Regulations require otherwise, pit lane and track discipline and safety measures will be the same for all practice sessions as for the race.
- 32.2** No driver may start in the race without taking part in at least one practice session.
- 32.3** During all practices there will be a green and a red light at the end of the pit lane. Cars may only leave the pit lane when the green light is on. Additionally, a blue flag and/or a flashing blue light will be shown in the pit exit to warn drivers leaving the pit lane if cars are approaching on the track.
- 32.4** The interval between the second free practice session and the qualifying session, in addition to the interval between the qualifying session and the first race, may not be less than three hours.
- The interval between races may not be less than three hours.
- In exceptional circumstances the stewards of the meeting may shorten this interval.
- 32.5** In the event of a driving infringement during any practice session the stewards may delete a driver's lap time(s), drop the driver such number of grid positions as they consider appropriate or request the driver to start the following race from the pit lane. Unless it is completely clear that a driver committed a driving infringement any such incident will normally be investigated after the relevant session.
- Where appropriate, regard will also be given to the provisions of Article 17.1.
- 32.6** Any driver taking part in any practice session who, in the opinion of the stewards, stops unnecessarily on the circuit or unnecessarily impedes another driver shall be subject to the penalties referred to in Article 32.5.

- 32.7** Should it become necessary to stop any practice session because the circuit is blocked by an accident or because weather or other conditions make it dangerous to continue, the clerk of the course will order red flags to be shown at all marshal posts and the abort lights to be shown at the Line.

When the signal is given to stop, all cars shall immediately reduce speed and proceed slowly back to the pit lane, and all cars abandoned on the track will be removed to a safe place.

Any competitor and/or driver causing a red flag during the practice sessions (Free Practice session and/or Qualifying session) will be reported to the Stewards and may receive a penalty under Article 15.3 and/or Article 15.5.

At the end of each practice session no driver may cross the Line more than once.

- 32.8** The clerk of the course and/or the Race Director may interrupt practice as often and for as long as he thinks necessary to clear the track or to allow the recovery of a car. However, only during qualifying practice will the session be extended as a result.

Should one or more sessions be thus interrupted, no protest can be accepted as to the possible effects of the interruption on the qualification of drivers admitted to start.

33) FREE PRACTICE SESSIONS

- 33.1** One free practice sessions of at least 30 minutes and of no more than 60 minutes duration will take place on the first day of the Event.

If the procedure set out in Article 34.2 below is used, free practice sessions may also be split using the same principles.

34) QUALIFYING PRACTICE SESSIONS

- 34.1** Two qualifying practice sessions of at least 15 minutes duration with a minimum of 5 minutes interval will take place during the Event.

During Qualifying and the break in between Qualifying 1 and 2, cars may be worked on only in the pit lane working area. Cars are not allowed to be pushed inside the pit garage.

Cars may not enter the fast lane of the pits until the pit exit is opened at the start or re-start of the qualifying session. Furthermore, in advance of the pit exit opening, no car may be moved to a position in the slow lane that is closer to the pit exit than the garage that has been assigned to the relevant team.

- 34.2** If the number of cars entered for an Event exceeds the number of cars which are permitted to take part in practice (according to the requirements of the circuit licence), the cars may be split into two groups.

- 34.3** No driver may start the race without taking part in at least one practice session.

- 34.4** Any driver who in the opinion of the Stewards is the sole cause of the issuance of a Red Flag during the qualifying practice session will not be permitted to take any further part in the session and their fastest lap time during the session may be deleted.

35) THE GRID

- 35.1** At the end of the qualifying practice the fastest time achieved by each driver will be officially published.

Should two or more drivers have identical times, priority will be given to the one who set it first.

- 35.2** Grids will be published at least one hour before the start of the relevant formation lap.

Any driver who is unable to start for any reason whatsoever must inform the stewards at the earliest opportunity and in any case, no later than one hour and fifteen minutes before the start of the formation lap.

If one or more cars are withdrawn, the starting grid will be closed up accordingly and the final starting grid confirmed 30 minutes before the start of the formation lap. Should two or more drivers have identical times, priority will be given to the one who set it first.

- 35.3** The fastest driver will start the race from pole position on the grid.

If the qualifying sessions were split in accordance with Article 34.2, the fastest driver overall will start from pole position on the grid and the fastest driver from the other group will start from second place on the grid. The remaining cars will be arranged on the grid in rows corresponding to their group and behind the fastest driver from each of their groups.

If one of the two groups has fewer qualified drivers than the other or following a decision of the stewards, the gaps on the grid will be closed up accordingly.

Any driver(s) who cannot start the race because their qualifying position places them outside the maximum number of cars permitted by the circuit licence, will only be allowed to start the race if any driver who qualified higher than him is unable to start and withdraws at least one hour and fifteen minutes before the start of the formation lap.

- 35.4** Any driver whose best qualifying lap exceeds 110% of the pole position time will not be allowed to take part in the race. Under exceptional circumstances however, which may include setting a suitable lap time in a previous free practice session, upon request the stewards may permit the car to start the race.

Any driver accepted in this manner will be placed at the back of the starting grid after any other penalties have been applied.

Should there be more than one driver accepted in this manner they will be arranged on the grid in the order in which they were classified in free practice.

- 35.5** The grid will be in a staggered 1 x 1 formation and the rows on the grid will be separated by 8 metres.

- 35.6** The grid for Race 1 will be drawn up in the order of the fastest time achieved by each driver during the first qualifying session.

The starting grid for Race 2 will be drawn up in the reverse order for the top 12 finishers from Race 1 Official Final results. The rest of the field will start from their finishing position of Race 1 Official Final results.

For the avoidance of doubt, if a driver get advantage in the position of Grid 2 after receiving the penalty from Race 1, the stewards have the right to add additional penalty to nullify any advantage gained from the initial penalty imposed for the reverse grid.

The grid for Race 3 will be drawn up in the order of the fastest time achieved by each driver during the second qualifying session. Should two or more drivers have set identical times, priority will be given to the one who set it first.

Once the grid has been established in this way, grid position penalties will be applied to the drivers in question in the order the offences were committed.

36) MEETINGS

- 36.1** A meeting chaired by the race director will take place on the first day of practice at a location to be advised, all drivers entered for the Event and their team managers must be present.

37) STARTING PROCEDURE

- 37.1** At least fifteen (15) minutes before the start of the formation lap the pit exit will be opened and cars will be permitted to leave the pit lane to cover at least one reconnaissance lap. At the end of this lap they will stop on the grid in starting order with their engines stopped.

Should they wish to cover more than one reconnaissance lap, this must be done by driving down the pit lane at greatly reduced speed between each of the laps.

Any car which does not complete a reconnaissance lap and is unable to reach the grid under its own power will not be permitted to start the race from the grid.

37.2 Twelve (12) minutes before the start of the formation lap, a warning signal will be given indicating that the end of the pit lane will be closed in two minutes.

Ten (10) minutes before the start of the formation lap the end of the pit lane will be closed and a second warning signal will be given. Any car which is still in the pit lane can start from the end of the pit lane provided it got there under its own power. If more than one car is affected they must line up in the order in which they qualified. However, any car reaching the end of the pit lane after the five-minute signal must start behind any car already at the pit exit.

All such cars may then join the race once the whole field has passed the end of the pit lane for the first time after the start.

37.3 The approach of the start will be announced by signals shown ten (10) minutes, five (5) minutes, three (3) minutes, one (1) minute and fifteen (15) seconds before the start of the formation lap, each of which will be accompanied by an audible warning.

When the five-minute signal is shown, everybody except drivers, officials and team technical staff must leave the grid.

37.4 When the three-minute signal is shown all cars on the grid must have their wheels fully fitted and resting on their wheels, after this signal wheels may only be removed in the pit lane, or on the grid during a race suspension.

A penalty under Article 15.3 will be imposed on any driver whose car did not have all its wheels fully fitted and was not resting on its wheels at the three-minute signal.

Everybody except drivers, officials and one team member must leave the grid. Any tyre trolleys and equipment must be removed from the grid at this time.

37.5 When the one-minute signal is shown, engines should be started and all team personnel must leave the grid by the time the 15 second signal is given taking all equipment with them. If any driver needs assistance after the 15 second signal he must raise his arm and, when the remainder of the cars able to do so have left the grid, marshals will be instructed to push the car into the pit lane. In this case, marshals with yellow flags will stand beside any car (or cars) concerned to warn drivers behind.

If any team personnel or team equipment remain on the grid after the fifteen-second signal has been shown, a drive-through penalty will be imposed on the driver concerned.

37.6 When the green lights are illuminated, the cars will begin the formation lap with the pole position driver leading.

When leaving the grid all drivers must respect the pit lane speed limit until they pass pole position.

Marshals will be instructed to push any car (or cars) which remain on the grid into the pit lane by the fastest route immediately after cars able to do so have left the grid. Any driver being pushed from the grid may not attempt to start the car and must follow the instructions of the marshals.

37.7 During the formation lap practice starts are forbidden and the formation must be kept as tight as possible.

37.8 Overtaking during the formation lap is only permitted if a car is delayed or cannot remain the formation lap and cars behind cannot avoid passing it without unduly delaying the remainder of the field. In this case, drivers may only overtake to re-establish the original starting order. Any driver delayed in this way, and who is unable to re-establish the original starting order before he reaches the first safety car line, must enter the pit lane and start from the end of the pit lane as specified in Article 37.2.

A penalty under Article 15.3(b) will be imposed on any driver who fails to enter the pit lane if he has not re-established the original starting order before he reaches the first safety car line.

- 37.9** When the cars come back to the grid at the end of the formation lap, they will stop on their respective grid positions, keeping their engines running. The driver alone will be responsible for stopping in the correct grid position.

There will be a standing start, the signal being given by means of lights activated by the permanent starter.

- a) Once all the cars have come to a halt the five-second signal board will be shown to indicate that the grid is complete and ready for the start. Soon after that the start lights will appear on the start gantry and the race will be started by extinguishing all the start lights simultaneously.

OR

- b) Once all cars have come to a halt then the five second light will appear followed by the four, three, two, one second light. At any time after the one second light appears, the race will be started by extinguishing all start lights.

The Start will be defined in the briefing notes of the Race Director.

- 37.10** Unless specifically authorised by the race director, during the start of a race the pit wall must be kept free of all persons with the exception of officials and fire marshals.

- 37.11** If, after returning to the starting grid at the end of the formation lap a problem arises, the following procedures shall apply :

- a) If a car develops a problem that could endanger the start the driver must immediately raise his hands above his head and the marshal responsible for that row must immediately wave a yellow flag. If the race director decides the start should be aborted the green lights will be illuminated two seconds after the abort lights are switched on, a board saying "EXTRA FORMATION LAP" will be displayed and all cars able to do so must complete a further formation lap whilst the car which developed the problem is moved into the pit lane.

When leaving the grid to complete the extra formation lap all drivers must respect the pit lane speed limit until they pass pole position.

The team may then attempt to rectify the problem and, if successful, the car may then start from the end of the pit lane. Should there be more than one car involved their starting order will be determined by the order in which they reached the end of the pit lane.

Every time this happens the race will be shortened by 3 minutes.

- b) If another problem arises which does not require the start to be delayed (see c) below), drivers will be asked to carry out an extra formation lap as set out in a) above. Any driver who caused the start to be aborted, and is then able to start the extra formation lap must enter the pit lane at the end of the lap and start the race as specified in Article 37.2. A penalty under Article 15.3(d) will be imposed on any driver who fails to start the race from the pit lane.

- c) If any other problem arises, and if the race director decides the start should be delayed, the following procedures shall apply:

- i) If the race has not been started, the abort lights will be switched on, a board saying "DELAYED START" will be displayed, all engines will be stopped and the new formation lap will start five minutes later. The next signal will be the three minute signal.

Tyre changing on the grid is not permitted during such a delay.

Every time this happens the race will be shortened by one lap.

- ii) If the race has been started the marshals alongside the grid will wave their yellow flags to inform the drivers that a car is stationary on the grid.

- iii) If, after the start, a car is immobilised on the starting grid, it shall be the duty of the marshals to push it into the pit lane by the fastest route. Any driver being pushed from the grid may not attempt to start the car.
 - iv) Once the car is in the pit lane his mechanics may attempt to start it, if successful the driver may re-join the race. The driver and mechanics must follow the instructions of the track marshals at all times during such a procedure.
- 37.12** Should Article 37.11 apply, the race will nevertheless count for the Series no matter how often the procedure is repeated, or how much the race is shortened as a result.
- 37.13** Either of the penalties under Articles 15.3 will be imposed on any driver who is judged to have a false start.
- a) Moved when the start light is given. For the avoidance of doubt, under condition of Article 37.9 b) the moment means when the first start light is ON.
 - b) Not correctly positioned his car on the starting grid as described in Article 37.9.
 - c) Any part of the contact patch of its front tyres outside of the lines (front and sides) at the time of the start signal is given.
- 37.14** Only in the following cases will any variation in the start procedure be allowed:
- a) If it starts to rain after the five-minute signal but before the race is started and, in the opinion of the race director teams should be given the opportunity to change tyres, the abort lights will be shown on the Line and the starting procedure will begin again at the ten-minute point.
 - b) If the start of the race is imminent and, in the opinion of the race director, the volume of water on the track is such that it cannot be negotiated safely even on wet-weather tyres, the abort lights will be shown on the Line and information concerning the likely delay will be displayed on the timing monitors. Once the start time is known at least ten minutes warning will be given.
 - c) If the race is started behind the safety car, Article 39.15 will apply.
- 37.15** The stewards may use any video or electronic means to assist them in reaching a decision. The stewards may overrule judges of fact. A breach of the provisions of the Code or these Sporting Regulations relating to the starting procedure, may result in the disqualification of the car and driver concerned from the Event.

38) THE RACES

- 38.1** During a race, drivers leaving the pit lane may only do so when the light at the end of the pit lane is green and on their own responsibility. A marshal with a blue flag and/or a flashing blue light, will also warn the driver if cars are approaching on the track.
- 38.2** Cars must be completely free of hoses and tools before leaving the assigned pit work area. Any breach of this rule may entail a penalty imposed at the discretion of the Stewards.
- 38.3** Should any car officially retire from the race and enter the pit lane, it must be immediately pushed into its allocated pit garage or to the Parc Fermé.

39) SAFETY CAR

- 39.1** The safety car will be driven by an ASN approved driver and will carry an approved observer capable of recognising all the competing cars who is in permanent radio contact with race control.
- 39.2** Twenty minutes before the start of the formation lap the safety car will take up position at the front of the grid and remain there until the five minute signal is given. At this point (except under Article 39.15 below) it will cover a whole lap of the circuit and take up position.
- 39.3** The safety car may be brought into operation to neutralise a race upon the order of the clerk of the course.

It will be used only if competitors or officials are in immediate physical danger but the circumstances are not such as to necessitate suspending the race.

- 39.4** When the order is given to deploy the safety car the message "SAFETY CAR DEPLOYED" will, where possible, be displayed on the timing monitors and all marshal's posts will display waved yellow flags and "SC" boards for the duration of the intervention.
- 39.5** No car may be driven unnecessarily slowly, erratically or in a manner which could be deemed potentially dangerous to other drivers or any other person at any time whilst the safety car is deployed. This will apply whether any such car is being driven on the track, the pit entry or the pit lane.
- 39.6** The safety car will join the track with its orange lights illuminated and will do so regardless of where the race leader is.
- 39.7** All competing cars must reduce speed and form up in line behind the safety car no more than ten car lengths apart.
- 39.8** With the exception of the cases listed under a) to h) below, no driver may overtake another car on the track, including the safety car, until he passes the first Line for the first time when the safety car is returning to the pits. However, if the safety car is still deployed at the beginning of the last lap, or is deployed during the last lap, Article 39.14 will apply.

The exceptions are :

- a) If a driver is signalled to do so from the safety car.
 - b) Under Articles 39.12 or 39.15 below.
 - c) When entering the pits a driver may pass another car remaining on the track, including the safety car, after he has reached the first safety car line.
 - d) When leaving the pits a driver may overtake, or be overtaken by, another car on the track before he reaches the second safety car line.
 - e) When the safety car is returning to the pits it may be overtaken by cars on the track once it has reached the first safety car line.
 - f) Whilst in the pit entry, pit lane or pit exit a driver may overtake another car which is also in one of these three areas.
 - g) Any car stopping in its designated garage area whilst the safety car is using the pit lane (see Article 39.11 below) may be overtaken.
 - h) If any car slows with an obvious problem.
- 39.9** When ordered to do so by the clerk of the course the observer in the car will use a green light to signal to any cars between it and the race leader that they should pass. These cars will continue at reduced speed and without overtaking until they reach the line of cars behind the safety car.
- 39.10** The safety car shall be used at least until the leader is behind it and all remaining cars are lined up behind him.
Once behind the safety car, the race leader must keep within ten car lengths of it (except under Article 39.12 below).
- 39.11** Under certain circumstances the clerk of the course may ask the safety car to use the pit lane. In these cases, and provided its orange lights remain illuminated, all cars must follow it into the pit lane without overtaking. Any car entering the pit lane under these circumstances may stop at its designated garage area.
- 39.12** When the clerk of the course decides it is safe to call in the safety car the message "SAFETY CAR IN THIS LAP" will, where possible, be displayed on the timing monitors and the car's orange lights will be extinguished. This will be the signal to the teams and drivers that it will be entering the pit lane at the end of that lap.

At this point the first car in line behind the safety car may dictate the pace and, if necessary, fall more than ten car lengths behind it.

In order to avoid the likelihood of accidents before the safety car returns to the pits, from the point at which the lights on the car are turned out drivers must proceed at a pace which involves no erratic acceleration or braking nor any other manoeuvre which is likely to endanger other drivers or impede the restart.

As the safety car is approaching the pit entry the yellow flags and SC boards will be withdrawn and, other than on the last lap of the race, replaced by waved green flags with green lights at the Line. These will be displayed until the last car crosses the Line.

39.13 Each lap completed while the safety car is deployed will be counted as a race lap.

39.14 If the safety car is still deployed at the beginning of the last lap, or is deployed during the last lap, it will enter the pit lane at the end of the lap and the cars will take the chequered flag as normal without overtaking.

39.15 Under certain circumstances the race may be started behind the safety car or resumed in accordance with Article 41.5(a). In either case, between the ten and five minute signal its orange lights will be illuminated, this being the signal to the drivers that the race will be started (or resumed) behind the safety car.

When the green lights are illuminated the safety car will leave the grid and all drivers must follow in grid order, no more than ten car lengths apart, and must respect the pit lane speed limit until they pass pole position. During a race start there will be no formation lap and race will start when the green lights are illuminated.

Overtaking is only permitted if:

- a) A car is delayed when leaving the grid and cars behind cannot avoid passing it without unduly delaying the remainder of the field, or
- b) There is more than one car starting from the pit lane and one of them is unduly delayed.

In either case drivers may only overtake to re-establish the original starting order or the order the cars at the pit exit were in when the race was started.

Any driver delayed in either way, and who is unable to re-establish the original starting order before he reaches the first safety car line, must enter the pit lane and may only join the race once the whole field has passed the end of the pit lane.

40) SUSPENDING A RACE

40.1 If competitors or officials are placed in immediate physical danger by cars running on the track, and the clerk of the course deems circumstances are such that the track cannot be negotiated safely, even behind the safety car, the race will be suspended.

40.2 Should it become necessary to suspend the race, the clerk of the course will order red flags to be shown at all marshal posts and the abort lights to be shown at the Line.

40.3 When the signal is given overtaking is forbidden, the pit exit will be closed and all cars must proceed slowly to the pit lane. The first car to arrive in the pit lane should proceed directly to the pit exit staying in the fast lane, all the other cars should form up in a line behind the first car.

If the race is suspended during a safety car intervention, and the safety car is directed into the pit lane, cars should stop in a line behind the safety car in the fast lane of the pits.

40.4 Any cars unable to return to the pit lane as a result of the track being blocked will be brought back when the track is cleared and will be arranged in the order they occupied before the race was suspended.

Additionally, any cars in the pit lane or pit entry at the time the race was suspended will be arranged in the order they occupied before the race was suspended.

In all cases the order will be taken at the last point at which it was possible to determine the position of all cars. All such cars will then be permitted to resume the race.

The safety car will then be driven to the front of the grid.

40.5 Whilst the race is suspended:

- a) Neither the race nor the timekeeping system will stop, however, where the Event timetable can accommodate it, the length of the race suspension will be added to the maximum time for the race in question.
- b) Cars may be worked on once they have stopped in the fast lane but any such work must not impede the resumption of the race.
- c) Only team members and officials will be permitted on the pit lane.
- d) Refuelling is forbidden.

40.6 Cars may not be moved from the fast lane whilst the race is suspended. A penalty under Article 15.3(a) will be imposed on any driver whose car is moved away from the fast lane to any other part of the pit lane.

At all times drivers must follow the directions of the marshals.

40.7 Any competitor and/or driver causing the red flag during the race(s) will be reported to the Stewards and may receive a penalty under Article 15.3 and/or Article 15.5.

41) RESUMING A RACE

41.1 The delay will be kept as short as possible and as soon as a resumption time is known teams will be informed via the timing monitors where possible, in all cases at least ten minutes warning will be given.

41.2 Signals will be shown five minutes, three minutes, one minute and fifteen seconds before the resumption and each of these will be accompanied by an audible warning.

41.3 When the three-minute signal is shown all cars on the grid must have their wheels fully fitted and resting on their wheels, after this signal wheels may only be removed if the car has been moved out of the fast lane, or during a further race suspension.

A penalty under Article 15.3(b) will be imposed on any driver whose car did not have all its wheels fully fitted and resting on their wheels at the three-minute signal or has any of its wheels changed before it leaves pit lane after the race has been resumed.

At the three-minute point any cars between the safety car and the leader, in addition to any cars that had been lapped by the leader at the time the race was suspended will start their engines and at the two-minute point these cars will be waved off to complete a further lap, without overtaking, and join the line of cars behind the safety car which left the pit lane when the race was resumed.

41.4 When the one-minute signal is shown, engines should be started and all team personnel must leave the fast lane by the time the fifteen-second signal is given taking all equipment with them. If any driver needs assistance after the fifteen-second signal he must raise his arm and, when the remainder of the cars able to do so have left the fast lane, marshals will be instructed to push the car out of the fast lane. In this case, marshals with yellow flags will stand beside any car (or cars) concerned to warn drivers behind.

41.5 The race will be resumed behind the safety car when the green lights are illuminated. The safety car will enter the pits after one lap unless :

- a) The race is being resumed in wet conditions and the race director deems more than one lap necessary, in which case see Article 39.15.
- b) All cars are not yet in a line behind the safety car.
- c) Team personnel are still clearing the fast lane of the pits.
- d) A further incident occurs necessitating another intervention.

When the green lights are illuminated the safety car will leave the pit lane and all drivers must follow, no more than ten car lengths apart.

41.6 Overtaking behind the safety car is only permitted if:

- a) A car is delayed when leaving the its position in the fast lane and cars behind cannot avoid passing it without unduly delaying the remainder of the field, may overtake to re-establish his original starting position provided he does so before he reaches the first safety car line. Should he fail to do so, he must re-enter the pit lane and may only re-join the race once the whole field has passed the pit exit.

A penalty under Article 15.3(b) will be imposed on any driver who fails to re-enter the pit lane if he has not re-established the original starting order before he reaches the first safety car line.

- b) Drivers may leave the fast lane in order to overtake any car delayed when leaving its position in the fast lane. Any driver whose car has been pushed from the fast lane, may not overtake in order to re-establish the order before the race was suspended.

In either case drivers may only overtake to re-establish the order before the race was suspended or the order the cars at the pit exit were in when the race was resumed.

Any driver delayed in either way, and who is unable to re-establish the original starting order before he reaches the first safety car line, must enter the pit lane and may only re-join the race once the whole field has passed the end of the pit lane.

41.7 Either of the penalties under Article 15.3a) or b) will be imposed on any driver who, in the opinion of the stewards, unnecessarily overtook another car during the lap.

During this lap Articles 39.12, 39.13, 39.14 and 39.15 will apply.

41.8 If the race cannot be resumed the results will be taken at the end of the penultimate lap before the lap during which the signal to suspend the race was given.

42) FINISH

42.1 The end-of-race signal will be given at the Line as soon as the leading car has covered the full race distance in accordance with Article 5.4.

42.2 Should for any reason the end-of-race signal be given before the leading car completes the scheduled duration, the race will be deemed to have finished when the leading car last crossed the Line before the signal was given. Should the end-of-race signal be delayed for any reason, the race will be deemed to have finished when it should have finished.

42.3 After receiving the end-of-race signal all cars must proceed on the circuit directly to the parc fermé without any unnecessary delay without overtaking (unless clearly necessary) without receiving any object whatsoever and without any assistance (except that of the marshals, if necessary).

Any classified car which cannot reach the parc fermé under its own power will be placed under the exclusive control of the marshals who will take the car to the parc fermé.

43) PARC FERME

43.1 Only those officials charged with supervision may enter the parc fermé. No intervention of any kind is allowed there unless authorised by such officials.

After the last Qualifying session and each Race, it is forbidden for any personnel (Team or Drivers relations/friends) to enter Parc Fermé.

The top 3 placed drivers and selected others (as notified by the Scrutineers) will proceed directly to the weigh scale immediately after leaving their cars.

Only one Mechanic is allowed to attach blowers to cool the engine and radiators but must leave the area immediately after this procedure.

43.2 When the parc fermé is in use, parc fermé regulations will apply in the area between the Line and the parc fermé entrance.

43.3 The parc fermé shall be sufficiently large and secure that no unauthorised persons can gain access to it.

44) CLASSIFICATION

44.1 The car placed first will be the one having covered the scheduled distance in the shortest time, or, where appropriate, passed the Line in the lead at the end of the 28 minutes plus one lap (or more if the race is suspended, see Article 40.4). All cars will be classified taking into account the number of complete laps they have covered, and for those which have completed the same number of laps, the order in which they crossed the Line.

44.2 Cars having covered less than 75% of the number of laps covered by the winner (rounded down to the nearest whole number of laps), will not be classified. For the avoidance of doubt, Cars do not need to take the chequered flag in order to be classified.

44.3 The official classification will be published after the race. It will be the only valid result subject to any amendments which may be made under the Code and these Sporting Regulations.

45) PODIUM CEREMONY

45.1 The drivers finishing the races in 1st, 2nd and 3rd positions and 1st position of the Rookie Cup must attend the prize-giving ceremony on the podium and immediately thereafter make themselves available for the purpose of television interviews and a press conference in the media centre.

46) PRESS CONFERENCES AND PROMOTION

46.1 Upon request, all registered drivers are obliged to attend free of charge all press conferences organised by the Promoter. The following obligations must in addition be respected :

Immediately after qualification and/or prize giving the first three classified drivers of the race will be required to make themselves available for a press conference (at a location specified in the supplementary regulations). All of these three drivers are obliged to attend this press conference.

The drivers must wear their closed overalls and designated caps during the press conferences.

46.2 Drivers must take part in any promotional activity requested by the promoter such as autograph sessions, prize giving, press conferences, pit road walkabouts and pre-race parades.

The drivers, competitors and manufacturers give the right to the Promoter to use their name for any promotional, advertising, publicity and public relations purpose, for the promotion of the Series.

Use of the Series logo by the competitors, manufacturers and drivers or their agents or representatives is prohibited other than by prior permission in writing from the Promoter.

APPENDIX 4 – TABLE OF PENALTY GUIDELINES

Offence	Practice	Qualifying	Race	BWP at least a min. of
GENERAL				
Not attending or too late to Drivers Briefing	300 Euro			
Disobeyed marshals/officials' instructions	Fine up to 500 Euro and/or Loss of all lap times		Drive Through Penalty	1
Did not respect the 3-minute warning (Car not resting on the wheels)			Up to 10 seconds time penalty or Drive Through Penalty	
Teams did not clear grid before 1-minute warning			Up to 10 seconds time penalty or Drive Through Penalty	
Overtake during Safety Car operation			Drive Through Penalty	1
Refueling during the session(s) or between the 2 qualifying sessions	Loss of all times		Disqualification	
Not wearing winner cap at podium			Up to 2,500 Euro fine	
Display of unauthorised sponsorship logos at podium or missing series logos			Up to 2,500 Euro fine	
Failure to attend post session driver weighing	Loss of all times		Disqualification	
TECHNICAL				
Weight of car does not comply with regs	Loss of all times	Loss of all times	Disqualification	
Contravention of regulations regarding wheels & tyres	Loss of all times	Loss of all times	Disqualification	
Technical Infringement	Loss of all times	Loss of all times	Disqualification	
PIT				
Reversed car under own power in pit lane	5-place grid penalty		Drive Through Penalty	1
Speeding in pit lane	Fine: up to 50 Euro for each km/h above the limit	Fine: up to 50 Euro for each km/h above the limit and/or up to 3-place grid penalty	Drive Through penalty	1
Cross the demarcation line at pit exit	Cancellation of the fastest lap and/or up to 3-place grid penalty		Drive Through Penalty	1
Ignoring Red Light signal at pit exit	Cancellation of the fastest lap and/or up to 5-place grid penalty		Drive Through Penalty or Disqualification	1
Breach of Parc Fermé regulations		Loss of all times	Disqualification	

The above penalties are guidelines which will be considered by the Stewards. However, the Stewards may impose any penalty they deem appropriate for any breach of the regulations.

Offence	Practice	Qualifying	Race	BWP at least a min. of
START				
Practice starts on track	Up to 3-place grid penalty		Drive Through Penalty	
False start (Standing Start)	Moving before the starting signal		Min. 10 seconds time penalty	
	Out of the box		Min. 5 seconds time penalty	
Overtake before the re-start of the race (Safety Car)			Drive Through Penalty	1
FLAGS				
Did not slow down under Yellow flag	Cancellation of the fastest lap and/or up to 5-place grid penalty		Up to 30 seconds time penalty or Drive Through Penalty	2
Did not comply with Blue flag /Impeding	Reprimand	Up to 3-place grid penalty	Time Penalty or Drive Through Penalty	1
Overtake under Yellow flag	Cancellation of the fastest lap and/or up to 5-place grid penalty		Time Penalty or Drive Through Penalty	1
Failed to respect Black & Orange flag	Black Flag and Loss of all times		Black Flag and/or Disqualification	2
Failed to respect Black Flag	Loss of all times		Exclusion	3
Did not comply with Red flag	Cancellation of the fastest lap and/or up to 5-place grid penalty		Time Penalty or Drive Through Penalty	2
Take Chequered Flag more than once	Cancellation of the fastest lap and/or up to 5-place grid penalty		Up to 1000 Euro Fine and/or up to 5-place grid penalty for next race	1
DRIVING STANDARDS				
Pushed another car - very minor – win a position	Reprimand or cancellation of the fastest lap		5 seconds time penalty	2
Caused a collision / contact – other car continued with delay/disadvantage	Up to 3-place grid penalty		Up to 30 seconds time penalty or up to 3-place grid penalty for next race	2
Caused a collision / contact - other car unable to continue	Up to 5-place grid penalty		Up to 30 seconds time penalty or Drive Through or up to 5-place grid penalty for next race	2
Caused a collision / contact - with multiple cars unable to continue	Up to 10-place grid penalty		Up to 60 seconds time penalty or Drive Through or up to 10-place grid penalty for next race	3
Left track (shortcut) or rejoined in an unsafe manner	Cancellation of the fastest lap and/or Up to 3-place grid penalty		Up to 10 seconds time penalty or up to 5-grid place penalty for the next race	1
Exceeded Track Limits	Loss of relevant lap times		Time penalty for repeat offences	
	Multiple offences (over 10 times in FP - over 3 times in Qualifying)			1
			Multiple offences (over 5 TL during the race)	1

The above penalties are guidelines which will be considered by the Stewards. However, the Stewards may impose any penalty they deem appropriate for any breach of the regulations.
